Edith K. Ackermann is a Visiting Scientist at the MIT School of Architecture; and Senior Research Associate at the Harvard Graduate School of Design, in Cambridge, MA. Previously Associate Professor of Media Arts and Sciences at the MIT Media laboratory, Edith also worked as a Scientific Collaborator at the Centre International d’Epistémologie Génétique, under the direction of Jean Piaget, in Geneva, Switzerland. She earned a Doctor of Developmental Psychology [Com Laude]; two Master’s degrees in Developmental Psychology and Clinical Psychology; and a Bachelor of Experimental Psychology degree, all from the University of Geneva, Switzerland.

Current appointments and collaborations include: The “Responsive Environments’ Group at the Harvard Graduate School of Design; The “Personal Robots” group at the MIT Media Lab and the “Computing” group at the MIT School of Architecture; The Exploratorium Science Museum, San Francisco, CA., and The LEGO group, DK.—as well as other organizations and institutions interested in the relations between play, imagination, and creativity, in human learning.
